

BRIEFLY ABOUT US

MISSION

Our mission is to provide humanitarian aid to war-affected Ukrainians, healthcare institutions and the Armed Forces of Ukraine, which is aimed at supporting:

- psychological and physical rehabilitation of war-affected people;
- medical institutions that treat military and civilian Ukrainians;
- The Armed Forces of Ukraine and the Territorial Defense Forces.

VALUES

Our unconditional values:

- mutual assistance, unselfish help;
- simplicity, straightforwardness, honesty and respect in relationships, transparency;
- responsibility, timely fulfillment of obligations;
- high dedication;
- desire to influence events and actively help change the course of the war.

TARGETS

We have identified two vectors of assistance:

- 1. Humanitarian. Not only clothing, footwear, food, personal protective equipment, but also assistance to health care facilities with medical equipment, consumables, medicines, medical instruments, etc.
- 2. Helping the military, whom we provide with drones, body armor, clothing, footwear, tactical medicine and food. They also need treatment and rehabilitation for those wounded on the battlefield and returned from captivity, as well as for injured civilians and children.

We do not collect money from Ukrainian citizens. We do not open fundraisers. We have gone the hard way to find international and Ukrainian donors and patrons, but this is our principled position! We are not resting on our laurels. We are moving on, and we have enough strength to fight.

And yes, our main goal is to win!

THE AMBASSADOR OF THE FUND

Since mid-March last year, the Help For Ukraine Charitable Organization has been helping Ukraine and Ukrainians meet all their urgent, vital needs by responding promptly to the challenges that arise in our society every day, almost every hour, due to the military operations.

The Foundation carefully processes each request, meeting the needs of everyone who applies for help. Not only IDPs, but everyone who needs it.

Our Foundation directs its daily efforts not only to meet the immediate needs of internally displaced persons and residents of the frontline and deoccupied territories, but also to help and support our energy industry in those regions of Ukraine where such assistance is needed immediately, especially our medical workers.

We do not raise funds from Ukrainians. We ensure the fulfillment of our mission in cooperation with other Ukrainian and foreign

- foundations, organizations and institutions.

We are immensely grateful to the Armed Forces of Ukraine and the National Guard for their resilience, courage and high professionalism - it is thanks to their sacrifice that we are able to wake up in the morning, walk confidently on our native land, and accumulate the assistance of Western partners to support Ukrainians, thus bringing our victory closer.

I sincerely thank everyone who helps Ukraine!

Please join our noble mission! The war is not over yet and the decisive battles for our independence and freedom are still ahead.

It is up to us, our activity and unity, to bring peace to Ukraine as soon as possible!

Together to victory! Thank you all! Glory to Ukraine!

Sincerely, Ambassador of the Charitable Organization «Help For Ukraine» Yevhen KOSHOVYI

ADDRESS OF THE PRESIDENT OF THE FOUNDATION

Since the first days of the full-scale invasion, we have had to take on new challenges to support the victims and help strengthen the Armed Forces and the country's defense capabilities. We have been delivering thermal imagers, drones, medicines and medical supplies, generators and food to the frontline.

Today, we are primarily focused on helping various healthcare institutions by delivering them the necessary expensive equipment, disinfection equipment, other medical equipment and medical furniture. We also provide them with medicines, drugs and consumables.

We would not have succeeded if it were not for you, our partners: philanthropists, friends of the Foundation, founders, employees, and just individuals.

Today we remember with gratitude and warmth each and every one of you who was and is with us. Thank you for trusting us to save the lives of others. We are grateful to those who are still with us to this day in fulfilling our difficult mission. It is thanks to all of you that we succeed.

Let's bring victory closer together! Let's make history of our country!

Yours sincerely, President of the Charitable Organization «Help For Ukraine» Stepan ASLANIAN

ADDRESS OF THE OF THE VICE PRESIDENT OF THE FOUNDATION

Since March 17, 2022, the charitable organization «Help For Ukraine» has been trying to bring our victory closer. First and foremost, it helps multidisciplinary medical institutions, as well as victims in the liberated territories and IDPs. We are helping with everything we can do: a variety of equipment, including medical equipment, clothing and footwear, food, detergents and hygiene products...

Our foundation, with the strong support of European donors and partners, makes humanitarian deliveries twice or even three times a week to the frontline areas and to those who were forced to leave for safer places. To help children, elderly and disabled people, orphans, mothers with small children in almost every community... We make no exceptions for anyone, helping everyone who needs it. In times of war, the most important thing is to stand together and help each other.

If necessary, we also support the Armed Forces of Ukraine and other units of our country's security forces, which are destroying the enemy 24/7 at the front, in the trenches, protecting us.

Therefore, I appeal to all Ukrainians - both abroad and those who stayed at home, as well as to the people of all countries and peoples who support us - in this difficult time for Ukraine, unite against the racist aggression before it spreads around the world!

Glory to Ukraine! I wish us all a speedy victory!

Sincerely, Vice-President of the Charitable Organization «Help For Ukraine» Vilen FATALOV

MEDICAL e.V. purchases medical equipment, medical disposables and consumables, and medicines from donations. Thanks to this, the organization is able to provide primary medical care to IDPs where no one else can. These are mostly patients who are not registered refugees and are not entitled to local medical services.

Thanks to MEDICAL e.V. and the close cooperation of this foundation with German medical institutions, we were able to deliver tons of humanitarian goods to Ukrainian healthcare institutions: ambulances, hemodialysis machines, artificial lung ventilation devices, incubators for newborns, ultrasound machines, Drager patient monitors, anesthesia machines, aspiration devices, oxygen cylinders, sterilizers, portable ECGs, defibrillators, portable defibrillators, functional medical beds (mechanical and electric), cribs, walkers, wheelchairs, wheelchairs, crutches, stretchers, medicines and medical consumables, etc.

"NOVA Ukraine" is a non-profit organization that has been dedicated to providing humanitarian assistance to the people of Ukraine and raising awareness of Ukraine in the United States and around the world since its founding in 2014 in the wake of the Euromaidan Revolution. Thanks to generous donations, it funds numerous charitable programs to help the people of Ukraine and strengthen Ukraine's democratic society.

«NOVA Ukraine» works closely with other non-profit organizations and volunteers focused on helping Ukraine. In 2014, NOVA Ukraine was ranked second in the Chicago Ukrainian Journal's ranking of the most popular Ukrainian non-profit organizations.

Our charitable organization, Help For Ukraine, is extremely grateful to Nova Ukraine for its help in delivering goods and providing humanitarian aid together with us to all those who need it.

OKKO – is a network of filling stations in Ukraine. It is owned by JSC Concern Galnaftogaz. The network not only provides fuel to volunteer organizations and charities, but also has its own charitable and humanitarian projects.

OKKO is a critical infrastructure company that supports the work of, among others, the army, hospitals, the State Emergency Service, etc. Having set a goal with the beginning of the full-scale invasion, it is to provide fuel to the Armed Forces, business, and life support services at all costs in order to win.

At a time when all citizens have united to protect Ukraine's independence from the enemy attack, OKKO also joined the country's efforts to help by providing fuel to charities, volunteers, the Armed Forces, the State Emergency Service, medics, etc.

Today, our charitable organization, Help for Ukraine, the Nova Ukraine Foundation and the OKKO filling station network have signed a trilateral memorandum of cooperation. The essence of the memorandum is that the Nova Ukraine Foundation buys fuel from the company at a special price, thereby ensuring that our requests for free refueling are met.

Today, the company is holding its own on the economic front. And we, together with them, also find the strength, funds and resources to help those who are defending the country from the enemy or helping others - saving people from shelling, hunger, and destruction.

Together with OKKO, we are ready to help Ukraine bring our victory closer!

The Free Ukraine Braunschweig Foundation is a German-Ukrainian partnership association that fulfills three tasks: providing humanitarian aid; uniting young people from both countries; and performing public relations to provide information about Ukrainian history and current events in an objective manner.

The association's goal is to promote cooperation, popularize interethnic relations, tolerance in all spheres of culture and the idea of international understanding, and expand cultural, political, scientific and social ties between Ukraine and Germany.

The Association is, of course, confessionally and politically neutral, selflessly active and does not pursue any of its own economic goals. The Association is a member of the «Haus der Kulturen e. B.».

Thanks to the Free Ukraine Braunschweig Foundation, our Foundation has been able to provide thousands of people both in the liberated territories and internally displaced persons, children with food, hygiene products, clothing and footwear.

UKRAINISCHER HILFSSTAB

Ukrainischer Hilfsstab is a Ukrainian community in northern Germany. It was organized to support Ukraine and its compatriots.

The main mission is to provide a reliable rear for Ukrainian soldiers fighting for the freedom of their homeland. The force coordinates in the following areas: information work and press center; humanitarian aid; fundraising and collecting items; organizing demonstrations and hosting refugees; and medical aid.

Ukrainischer Hilfsstab directs its resources to provide Ukrainian soldiers with high-tech and personal protective equipment. It also creates all the necessary conditions for refugees to live comfortably.

Since the manufacturers and suppliers of the necessary equipment cooperate with Ukrainischer Hilfsstab without intermediaries, this allows for efficient allocation of funds from the fund. The organization does not purchase lethal weapons, providing only defensive needs and humanitarian aid.

Thanks to the Ukrainischer Hilfsstab, our Foundation has managed to provide thousands of people both in the liberated territories and internally displaced persons, as well as children with food, hygiene products, clothing and footwear.

And from the Consulate General of Ukraine in Hamburg, we were able to provide the military with much-needed and relevant equipment: drones, thermal imaging monoculars, etc.

🕸 ΑΓΡΟΜΑΤ

AGROMAT Industrial and Technical Company LLC (AGROMAT) is a Ukrainian importer of ceramic tiles and sanitary ware, furniture and lighting for bathrooms and the entire household market. It has an extensive network of stores selling products for construction, repair and home improvement covering most major cities of Ukraine.

One of the first Ukrainian companies to agree to support our appeal to equip the Rehabilitation Center in Morshyn. The first step has been taken - Agromat is providing us with 10 high-quality shower trays, which will be installed soon.

We believe that this is the beginning of a true partnership.

«Nova Poshta» is a Ukrainian international group of companies that provides a full range of logistics and related services. Every year, it implements projects in healthcare, education, and the environment, and supports 10 of the 17 UN Sustainable Development Goals.

«The Humanitarian Post of Ukraine is the company's flagship social project launched in 2014, under which Nova Poshta helps volunteer organizations deliver aid to the military in the war zone free of charge.

With the beginning of the large-scale Russian invasion, the company launched another direction - Humanitarian Nova Poshta, under which the company helps volunteer organizations deliver goods to those in need of assistance at its own expense. There are almost 350 such Ukrainian foundations and volunteer organizations. Among them is our charitable organization "Help For Ukraine".

We have sent a considerable amount of humanitarian aid to different parts of Ukraine through Nova Poshta since the foundation's inception. We continue to cooperate within the framework of the Nova Poshta Humanitarian project, which allows us to quickly deliver humanitarian supplies across the country and pay for them with points.

We have been sending entire pallets of food, hygiene products, as well as generators and medical wheelchairs, medical supplies and medicines, etc.

«Nova Poshta Humanitarian is a social initiative of Nova Poshta that allows us to transport goods for volunteers, our so-called magic wand. All this time, Nova Poshta has been cooperating with us on this project.

PASTOR STEPHAN KELLER From HAMBURG

Our most important achievement is our friends and partners around the world. Business owners and representatives, charitable foundations, institutions and organizations. And it's great when their number grows. Thanks to friendship, trust and a common goal - defeating the Russian threat to the whole world.

Having hosted Ukrainian IDPs since the beginning of the war and seeing the atrocities committed by the aggressor country in Ukraine, many foreigners have begun to understand: Ukraine needs help to survive this war.

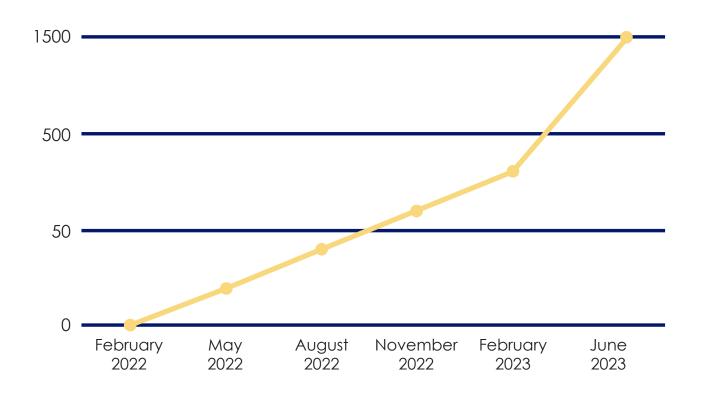

One of them is **Mr. Pastor Stefan Keller**, Mercy Church from Hamburg, who provided assistance to Ukraine by donating more than 30 generators for the needs of the military and civilians. Realizing that their help today is a victory for the world tomorrow.

1570 TONS – OF CARGO TRANSPORTED IN TOTAL 1477 TONS – OF HUMANITARIAN AID PROVIDED 39890 KM OF ROADS COVERED

According to statistics, the demand for help clearly exceeds our capabilities. This is evident from the almost linear growth chart. Although we have the largest warehouse in terms of territory - 5 thousand square meters

OUR PRINCIPLES

Every day we receive shipments of humanitarian aid that will save someone's life.

Every day we receive dozens of requests from hospitals and clinics, and we search for and collect everything they need.

We deliver and send aid to those who need it, and we will not stop!

Our charitable organization cooperates with enterprises, organizations in Ukraine and abroad, philanthropists and international foundations, raising charitable funds.

The Foundation assumes the costs of maintaining charitable objects, finances specific targeted programs, and cooperates with other charitable organizations in implementing joint projects.

We work transparently, so we always publish the results of our cooperation with our partners in the media and keep strict records of the receipt, transfer and redistribution of charitable aid.

DEVELOPMENT PROSPECTS

HEROES NEED A COMFORTABLE REHABILITATION CENTER

Our team has a big Dream. And an achievable Goal. It is to create a rehabilitation center in Morshyn to provide rehabilitation to war victims:

- veterans, military personnel and their families,
- civilians who have suffered any psychological and/or physical trauma as a result of hostilities.

WE HAVE TAKEN CERTAIN STEPS:

- In cooperation with professional psychologists, a rehabilitation program was developed in accordance with WHO standards;
- a 54-bed psychological rehabilitation unit was organized;
- The 3rd floor in the central building of the sanatorium was rented, where there are 27 rooms for 54 people, a bathroom and a toilet.

Thanks to the concern of the AGROMAT Industrial and Technical Company, we already have 10 high-quality shower trays that will be installed soon.

But. The condition of this building is critical. It needs cosmetic repairs, replacement of units and heating systems. These are not the best conditions for the treatment and rehabilitation of our Heroes and the injured civilians, including children, who have been affected by the war. And they should have only the best.

Therefore, to achieve the Goal and fulfill the Dream, we need your help!

The Center needs partners, donors, and just caring people who can create a miracle together with us! Those who are willing to support the project by providing furniture, plumbing, and building materials for the renovation of each room.

If you can help financially, we will be very grateful to you!

After all, in addition to repair work and comfortable furnishing of rooms for patients, the Center requires other expenses for its normal functioning!

Highly qualified specialists work here and are already providing medical care to our Heroes. But the state is at war and cannot cover all the costs:

- accommodation and meals for patients;
- equipment maintenance;
- medical procedures;
- services of psychologists and lawyers.

- from **85 €** per patient per day
- from 2635 € per patient per month

27 rooms for 54 people75000 € FOR RECONSTRUCTION

Get involved! It can be help with construction materials or financial assistance!

OUR DREAM AND GOAL IS DISCOVERY: DECEMBER 2024!

Наші колеги з чернівецького складу передали гуманітарну допомогу в дитячій будинок міста Чернівці

Хочу подякувати нашій команді "Гуманітарний фронт північної Німеччини "за чергову ластівку, яка у четвер 22 грудня завантаженою під зав'язки доверху поїхала у напрямку Гамбург- Івано-Франківськ-Київ.

Хочу подякувати фонду " Medical " та Help For Ukraine , Dr. Oksana Ulan за можливість доставки допомоги в Україну та її подальший транспорт на фронт

🚛 Благодійний фонд «Добрі вчинки разом» 31 август 2022 г. - 🕄

Щира подяка від будинку престарілих, що на Сумщині 🙏

Люди похилого віку, що проживають там, дуже потребують допомоги. Дім знаходиться в аварійному стані, не вистачає продуктів харчування, засобів особистої гігієни, ліків, та іншого.

Ми, як фонд який взяли цей будинок на повне забезпечення, намагаємося ці потреби закривати.

Дякуємо нашим партнерам Help For Ukraine, які допомогли нам з медикаментами!

Sincere thanks from the nursing home in Sumy Oblast 🙏

The elderly people living there are in dire need of help. The house is in a state of emergency, there is not enough food, personal hygiene products, medicines, and other things.

We, as a fund that has taken over this house for full security, are trying to cover these needs.

Thanks to our partners

https://youtube.com/channel/UCiX9Gf99m8wbhBY0Bqjwqhg who helped us with medicines!

Київський міський клінічний госпіталь ветеранів війни 21 октябрь 2022 г. - 🚱

ЩЕ ОДИН КРОК ДО ПОВНОЦІННОГО ЖИТТЯ.

КНП «Київський міський клінічний госпіталь ветеранів війни» висловлює щиру подяку БО «БФ «Хелп фор Юкрейн» #Help for Ukraine за надану допомогу у вигляді допоміжних технічних засобів реабілітації (ходунки Walkers) для забезпечення мобільності наших пацієнтів.

Така допомога сприятиме зниженню стійких обмежень життєдіяльності.
